

CHANDAN KUMAR SHARMA

Full Stack Developer | MERN Stack | React.js | Node.js | REST APIs

+91-7079128817 | b.techchandancs@gmail.com | [linkedin.com/in/chandansharma07](https://www.linkedin.com/in/chandansharma07) | github.com/Jai-ksprogrammer

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on, end-to-end experience across the MERN stack — building responsive front ends with React.js and Redux Toolkit, and scalable back ends with Node.js, Express.js, and MongoDB. Independently designed, integrated, and deployed 10+ RESTful APIs, improving page load speed by up to 30% and enabling real-time, scalable data handling across 5+ production and academic projects. Strong foundation in Data Structures & Algorithms, database schema design, JWT authentication, and version control (Git/GitHub), with practical experience owning projects from API design through cloud deployment (Netlify, Vercel). Seeking to apply full-stack engineering skills to build reliable, scalable software products.

TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript (ES6+), React.js, Redux Toolkit, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Backend & APIs:** Node.js (basic), Express.js, REST API Design & Integration, JWT Authentication
- **Database:** MongoDB (CRUD operations, schema design)
- **UI/UX & Animation:** Responsive Web Design, Framer Motion, AOS (Animate On Scroll)
- **Core CS:** Data Structures & Algorithms, Problem Solving
- **Testing & Version Control:** Manual/Functional Testing, Git, GitHub (branching, code review, collaboration)
- **Deployment & Tools:** Netlify, Vercel, MS Office, Google Workspace

PROJECTS

E-Learning Website (Full-Stack)

Tech Stack: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Bootstrap

- Independently designed and built a full-stack e-commerce/e-learning platform listing 100+ products, handling both backend REST API development (Node.js, Express.js) and MongoDB schema design for real-time data handling.
- Implemented the React.js front end with Redux Toolkit for centralized state management, reducing prop-drilling and improving app maintainability.
- Designed a 100% mobile-optimized, cross-device interface, improving accessibility and user experience across screen sizes.

Face Detection Music System

Tech Stack: React.js, JavaScript (ES6+), REST APIs, CSS3, Framer Motion

- Engineered a fully responsive React.js interface that boosted UI/UX quality and page load speed by 30%, improving overall user retention.
- Integrated 5 REST APIs to power real-time facial-recognition-based music recommendations, cutting data-retrieval latency and increasing page interactivity.
- Implemented reusable component architecture to streamline development and simplify future feature additions.

EDUCATION

B.Tech in Computer Science Engineering (CSE)

2022 – 2026

Prestige Institute of Management & Research, Bhopal (RGPV)

CERTIFICATIONS & ACTIVITIES

- **Cisco Cybersecurity Essentials** — Cisco Networking Academy
- **WebQuest Certificate** — College Technology Event
- **NSS Volunteer (2024 – Present):** Led community outreach and awareness initiatives, strengthening leadership, teamwork, and public-communication skills.
